

# THE LOOKOUT

BY GARDENER'S COTTAGE

## Private Hires

About:

The Gardener's Cottage restaurant group has grown out of a belief that dining should be an inclusive, social activity, not an exclusive one, and that it should connect diners to one another, to chefs and producers and to a time and a place.

Our restaurant sits above the Edinburgh skyline in the Royal Observatory walls. We share the site with Collective, an Arts organisation that has been supporting new artists who are at a pivotal stage of their development.

We pride ourselves on creating seasonal menus using the best ingredients that we can find and supporting our favourite local producers.

Our chefs will work closely with you to create a stunning menu for your guests, ensuring a unique and magical experience. All prices include room hire and set up, dedicated staff members to attend to your guests and a bespoke menu for your event. Maximum capacity of the restaurant is 34 people.
